

HOPE Connections

Peer-led Recovery Focusing on **Wellness** for the **Whole Person**

Hope Connections centers its foundation on four pillars: **Home, Health, Community, and Purpose.** The program is a gateway to wellness for people affected by mental illness, substance use, or addiction. Recovery is linked to multiple pathways, connecting Journeymen with opportunities and resources within the community. The success of the program relies on the mutual partnership with a Peer Recovery Coach who has lived experience dealing with mental health and substance use challenges.
